INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Salton Community Services District
Salton City, California

I have audited the accompanying financial statements of the governmental activities and the business-type activities of the Salton Community Services District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audit. I conducted the audit in accordance with auditing standards generally accepted in the United States of America and the State Controller's minimum audit requirements for California Special District. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Basis for Adverse Opinion on Governmental Activities and Business-type activities

As discussed in Note 3 to the financial statements, management has not maintained supporting documentation for capital assets in governmental activities and business-type activities and, accordingly, has not recorded depreciation expense on those assets. Accounting principles generally accepted in the United States of America require that those capital assets be capitalized and

depreciated, which would increase the assets, net position, and expenses of the governmental activities and business-type activities. The amount by which this departure would affect the assets, net position, and expenses of the governmental activities and business-type activities has not been determined.

Adverse Opinion

In my opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on Governmental Activities" and business-type activities paragraph, the financial statements referred to above do not present fairly the financial position of the governmental activities and business-type activities of the Salton Community Services District, or the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 9, Schedule of the District's proportionate share of the net pension liability (asset) - miscellaneous plan and safety plan, and the Schedule of Contributions - miscellaneous plan and safety plan on pages 47 and 48, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the financial statements as a whole. The supplementary schedules on pages 49 through 53 are presented for purposes of additional analysis and is not a required part of the financial statements. The information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

April 5, 2021

SALTON COMMUNITY SERVICES DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2020

The following section of the annual financial report of the Salton Community Services District (the District) includes an overview and analysis of the District's financial position and activities for the years ended June 30, 2020 and 2019. This discussion and analysis, as well as the basic financial statements which it accompanies, is the responsibility of the management of the District.

Introduction to the Basic Financial Statements

This annual report consists of a series of financial statements, prepared in accordance with generally accepted accounting principles; such report has been designed to improve the usefulness of the report to the primary users of these basic financial statements.

The District presents its basic financial statements using the economic resources measurement to focus and accrual basis of accounting. The Sewer Maintenance fund and the Sewer Construction fund are reported as a Business-Type Activity. The District's basic financial statements include a Statement of Net Assets; a Statement of Revenues, Expenses, a Statement of Changes in Net Assets; and a Statement of Cash Flows. Notes to the basic financial statements and this section support these statements. All sections must be considered together to obtain a complete understanding of the financial position and results of operations of the District.

Statements of Net Position – The Statements of Net Assets include all assets and liabilities of the District, with the difference between the two reported as net assets. Assets and liabilities are reported at their book value, on an accrual basis, as of June 30, 2020, and 2019. These statements also identify major categories of restrictions on the District's net assets.

Statements of Revenues, Expenses, and Changes in Net Position – The Statements of Revenues, Expenses, and Changes in Net Assets present the revenues earned and expenses incurred by the District during the years ended June 30, 2020, and 2019, on the accrual basis of accounting.

Statement of Cash Flows – For the District's Business-Type Activity – The Statements of Cash Flows present the changes in the District's cash and investments for the years ended June 30, 2020 and 2019. Such statements are summarized by operating, capital, and noncapital financing and investing activities. The statements of cash flows have been prepared using the direct method of reporting cash flows and, therefore, present gross, rather than net amounts, for each respective year's activities.

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPEDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2020

Amounts reported for governmental activities in the statement of activities (page 12 & 13) are different because:

Net change in fund balances-total governmental funds (page 16)	\$ (150,088)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets should be allocated over their estimated useful lives and reported as depreciation expense. See discussion in note 3 to the financial statements. This is the amount of capital outlays in the current period.	-0-
Pension obligation expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(23,809)
Repayment of capital lease principal is an expenditure in the Governmental funds, but the repayment reduces long-term Liabilities in the statement of net position.	
Principal repayments	-0-
Capital asset of \$ 48,800 less related liability of \$ 31,676 - net amount of \$ 17,124 transferred to sewer maintenance fund	<u>(17,124)</u>
Change in net assets of governmental activities (pages 12 & 13)	<u>\$ (191,021)</u>

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Salton Community Services District (District) have been prepared in conformity with generally accepted accounting principles as applied to governmental units. The Governmental Accounting Standards Board is the accepted standard-setting body of establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

A. Reporting Entity

The District was formed under government code section 61600 of the State of California on June 13, 1955.

The District was established and formed to provide the following:

1. Collect, treat, or dispose of sewage.
2. Collect, transfer and dispose of solid waste.
3. Provide fire protection.
4. Acquire, construct recreation facilities.
5. Organize, promote community recreation.
6. Acquire, construct, and improve lighting and landscaping.
7. Provide emergency medical services.

Blended Component Unit:

On October 15, 2002, the Board approved and authorized the execution and filing of the organizational documents relating to the Salton Community Services District Financing Corporation.

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting

The District uses funds to report on its' financial position and the results of its' operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Governmental funds are used to account for or most of a government's general activities, including the collection of property taxes and the acquisition or construction of capital assets. The general fund is used to account for all activities of the general government not accounted for in some other fund.

The governmental fund types of the District consists of the general fund and the proprietary funds. The general fund is made up of the General, and the Channel Maintenance Funds. The proprietary funds consists of the Sewer Construction fund and the Sewer Maintenance fund.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet.

Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction that can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period.

Operating revenues, such as sewer charges, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as grant funding and investment income, result from non-exchange transactions, in which, the District gives (receives) value without directly receiving (giving) value in exchange.

The District reports its business type activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water services to its customers on a continuing basis be financed or recovered primarily through user charges (sewer service charges), capital grants and similar funding.

Net Position of the District is classified into three components: (1) net investment in capital assets, (2) restricted net position, and (3) unrestricted net position. These classifications are defined as follows:

Net Investment in Capital Assets

This component of Net Position consists of capital assets and reduced by the outstanding balances of notes or borrowing that are attributable to the acquisition of the asset, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets.

Restricted Net Position

This component of Net Position consists of Net Position with constrained use through external constraints imposed by creditors (such as through debt

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

This component of Net Position consists of Net Position that does not meet the definition of “net investment in capital assets” or “restricted Net Position”.

When both restricted and unrestricted resources are available for use, it is the District’s practice to use restricted resources first, then unrestricted resources as they are needed.

D. Cash and Investments

Cash includes amounts in demand deposits.

Investments consist of time certificates of deposits and the California Local Investment Fund (LAIF). These investments are stated at fair value.

E. Inventories

Inventories, stated at cost, consist of various materials needed for the sewer construction.

F. Interfund Activity

During the normal course of business, individual funds may receive or pay amounts for other funds, giving rise to interfund receivable or payables which are liquidated shortly thereafter. Interfund balances were comprised of the following as of June 30, 2020:

	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>	
General Fund	\$ 4,800	\$ 83,826	
Chanel Maintenance	236	(49)	
Sewer Maintenance	83,777	6,036	
Sewer Construction	<u>1,000</u>	<u>-0-</u>	
Total	<u>\$ 89,813</u>	<u>\$ 89,113</u>	

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Deferred Outflows / Inflows of Resources

In addition to assets, the Statements of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of Net Position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statements of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

H. Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates under different assumptions or conditions.

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2020

NOTE 2 - CASH AND INVESTMENTS

The District operates its idle cash investments under the Prudent Man Rule (California Civil Code Sections 2261 et seq.). This affords the District a broad spectrum of investment opportunities as long as the investment is deemed prudent and is allowable under current legislation of the State of California (Government Code Section 53600 et seq.).

In accordance with Section 53601 of the California Government code, the District may invest in the following types of instruments:

- a. Securities of the U.S. Government, or its agencies
- b. Certificates of deposit
- c. Negotiable certificates of deposit
- d. Bankers acceptances
- e. Commercial paper
- f. Local Agency Investment Fund (LAIF)

Investment in State Investment Pool:

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of the portfolio).

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2020

NOTE 2 - CASH AND INVESTMENTS (CONTINUED)

Classification of Deposits and Investments by Credit Risk:

Deposits and investments are classified into three categories of credit risk. These categories are as follows:

Deposits:

- Category 1 - Deposits which are insured by FDIC, a state depository insurance fund or a multiple-financial institution collateral pool, or deposits which are collateralized with securities held by the District or the District's agent in the District's name.
- Category 2 - Deposits which are collateralized with securities held by the pledging financial institutions trust department in the District's name.
- Category 3 - Deposits which are uncollateralized, or collateralized but the pledge securities are not held in the District's name.

Investments:

- Category 1 - Investments which are insured by SIPC, or where the securities are held by the District or the District's agent in the District's name.
- Category 2 - Investments which are uninsured and unregistered where the securities are held by the purchasing financial institution's trust department or agent in the District's name.
- Category 3 - Investments which are uninsured and unregistered where the securities are held by the purchasing financial institution's trust department or agent, but not in the District's name.

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2020

NOTE 4 - PROPERTY TAXES AND SPECIAL ASSESSMENT REVENUE

Revenue is recognized in the fiscal year for which the tax and assessment is levied. The County of Imperial levies, bills and collects property taxes and special assessments for the District; under the County's "Teeter Plan" the County remits the entire amount levied and handles all delinquencies, retaining interest and penalties. Secured and unsecured property taxes are levies on January 1 of the preceding fiscal year.

Secured property tax is due in two installments, on November 1 and February 1 and becomes a lien on those dates. It becomes delinquent on December 10 and April 10, respectively. Unsecured property tax is due on July 1, and becomes delinquent on August 31.

The term "unsecured" refers to taxes on personal property other than real estate, land and buildings. These taxes are secured by liens on the personal property being taxes. Secured and unsecured property tax revenues are recognized by the District in the fiscal year they are assessed provided they become available as defined above.

NOTE 5 – LONG-TERM DEBT

Loan payable to Salton Sea Enterprise, LLC payable in monthly installments of \$3,948, including interest at 7% and collateralized by an office building. Final payment is due August 24, 2044 \$ 551,593

Capital lease payable to Ford Motor Credit, payable in monthly installments of \$ 630, including interest at 1.90% and collateralized by a truck. Final payment is due July 6, 2023. \$ 22,621

Capital lease payable to CIT Bank, N.A., payable in monthly installments of \$ 5,494, including interest at 7.690% and collateralized by equipment. Final payment is due October 10, 2024. \$ 238,376

2041-2045	170,820	26,609	197,429
Total	<u>\$ 812,590</u>	<u>\$ 636,010</u>	<u>\$ 1,448,600</u>

NOTE 6 – COMPENSATED ABSENCES

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Unused vacation and sick pay are accrued in the government wide and proprietary fund financial statements.

NOTE 7 – OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The District has a single-employer postemployment benefit plan which provides postretirement health care benefits through the CalPERS healthcare program (PEMHCA) to eligible employees who retire directly from the District. The District pays the cost of medical premiums for the lifetime of the retiree and his or her spouse up to a maximum amount of \$ 414 per month. The District does not provide a retiree contribution for dental, vision, or life insurance benefits.

In order to be eligible for the District's contribution, the employee must have worked a minimum of 5 years with the District and be at least 50 years old in order to qualify for medical benefits. Benefit provisions are established by the Board of Directors.

Funding Policy

The District's Board of Directors will not be funding the plan in the current year. The Board will review the funding requirements and policy annually.

NOTE 7 – OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS
 (CONTINUED)

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The District has elected to calculate the ARC and related information using the alternative measurement method for employers in plans with fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over the remaining period of 22 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in its net OPEB obligation to the Retiree Health Plan:

Annual required contribution		\$ 116,138
Interest on net OPEB obligation		-0-
Adjustment to annual required contribution		-0-
Annual OPEB cost (expense)		<u>116,138</u>
Contributions made		<u>65,551</u>
Increase in net OPEB obligation		50,587
Net OPEB obligation – beginning of year		<u>-0-</u>
Net OPEB obligation – end of year		<u>\$ 50,587</u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the current fiscal year is as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2019	\$ 116,138	56%	\$ 50,587

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 7 – OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS
(CONTINUED)

Funding Status and Funding Progress

As of July 1, 2010 the actuarial accrued liability (AAL) for benefits was \$1,291,632, all of which is unfunded.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrences of events far into the future. Examples include assumptions about future employment, mortality and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer as subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term prospective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees – Based on the historical average retirement age for the covered group, active plan members were assumed to retire at age 59, or at the first subsequent year in which the member would qualify for benefits.

Mortality – Life expectancies at the calculation date are based on the most recent mortality tables published by the National Center for Health Statistics website (www.cdc.gov). The calculation of OPEB liability for each year is based on the assumption that all participants will live until their expected age as displayed in the mortality tables. The current age for the retiree's spouse is assumed to be the same as that of the retiree.

Turnover – The probability that an employee will remain employed until the assumed retirement age was determined using non-group-specific age-based turnover data

SALTON COMMUNITY SERVICES DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

**NOTE 7 – OTHER POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS
 (CONTINUED)**

provided in Table 1 in paragraph 35 of GASB Statement No. 45. In addition the expected future working lifetimes of employees were determined using Table 2 in paragraph 35c of GASB Statement No. 45.

Healthcare cost trend rate – Healthcare cost trend rates were selected based on a combination of national and state trend surveys as well as professional judgment. The ultimate trend rate was 6.0%. The medical costs are capped at \$414 per month.

Health insurance premiums – 2010-11 health insurance premiums for retirees were used as a basis for calculation of the present value of total benefits to be paid. An employee is assumed to continue with the same medical plan upon retirement. If an employee waived medical coverage, then such waiver is assumed to continue into retirement.

Medicare Coordination – Medicare was assumed as the primary payer for current and future retirees at age 59.

Payroll increase – Changes in the payroll for current employees are expected to increase at a rate of approximately 2.8% annually.

Discount rate – The calculation used an annual discount rate of 2%. This is based on the assumed long-term return on plan assets or employer assets.

Actuarial cost method – The entry age actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at July 1, 2017 was twenty-nine years.

Plan for Funding

On an ongoing basis, the District will be reviewing its assumptions, comparing them against actual experience and recalculation the needed funding with the goal of paying for postemployment benefits out of interest earned on designated funds.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 8: General Information about the Pension Plans

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

- A. **Plan Descriptions** – All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

NOTE 8: General Information about the Pension Plans (continued)

The Plans' provisions and benefits in effect at June 30, 2020, are summarized as follows:

	<u>Miscellaneous</u>	
	<u>Prior to January 1, 2013</u>	<u>On or After January 1, 2013</u>
Hire date		
Benefit formula	2% at 60	2% at 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life
Retirement age	50 to 67	52 to 67
Monthly benefits, as a % of eligible compensation	1.1% to 2.4%	1.0% to 2.5%
Required employee contribution rates	7.0% *	7.0% *
Required employer contribution rates	11.6%	6.2%
	<u>Safety</u>	
	<u>Prior to January 1, 2013</u>	<u>On or After January 1, 2013</u>
Hire date		
Benefit formula	.5% at 55	2% at 57
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life
Retirement age	50 to 55	50 to 55
Monthly benefits, as a % of eligible compensation	1.8% to 2.5%	1.4% to 2.0%
Required employee contribution rates	7.0% *	7.0% *
Required employer contribution rates	0.0%	0.0%

* District pays the employees' share of contributions on behalf of employees

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

As of June 30, 2020, the District reported net pension liabilities (assets) for its proportionate shares of the net pension liability of each plan as follows:

	<u>Proportionate Share of Net Pension Liability</u>
Miscellaneous	\$ 455,534
Safety	(476,140)
Total Net Pension Liability (Asset)	<u>\$ (20,606)</u>

SALTON COMMUNITY SERVICES DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

NOTE 8: General Information about the Pension Plans (continued)

B. Pension Liabilities (Assets), Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

The District's net pension liability (asset) for each Plan is measured as the proportionate share of the net pension liability. The net pension liability (asset) of each of the Plans is measured as of June 30, 2019, and the total pension liability for each Plan used to calculate the net pension liability (asset) was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability (asset) was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability (asset) for each Plan as of June 30, 2020 and 2019 was as follows:

	<u>Miscellaneous</u>	<u>Safety</u>	<u>Total</u>
Proportion - June 30, 2019	0.01063%	-0.00696%	0.00003%
Proportion - June 30, 2020	0.01055%	-0.00766%	-0.00054%
Change - Increase (Decrease)	-0.00008%	-0.00070%	-0.00057%

For the year ended June 30, 2020, the District recognized pension expense of \$124,799. At June 30, 2020 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Changes of assumptions	\$ 2,206	\$ 3,892
Differences between expected and actual experience	551	2,451
Differences between projected and actual investment earnings	--	1,414
Difference between employer's contributions and proportionate share of contributions	--	85,487
Change in employer's proportion	87,705	150
Pension contributions made subsequent to measurement date	65,938	--
Total	\$ 156,400	\$ 93,394

The District reported \$65,938 as deferred outflows of resources related to contributions subsequent to the measurement date which will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

SALTON COMMUNITY SERVICES DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 8: General Information about the Pension Plans (continued)

B. Pension Liabilities (Assets), Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Fiscal Year Ended June 30:	<u>Miscellaneous</u>	<u>Safety</u>	<u>Total</u>
2021	\$ 28,081	\$(25,474)	\$ 2,607
2022	(5,978)	9,878	3,900
2023	(897)	(8,876)	(9,773)
2024	1,609	(1,275)	334
2025	--	--	--
Thereafter	--	--	--
	<u>\$ 22,815</u>	<u>\$(25,747)</u>	<u>\$ (2,932)</u>

Actuarial Assumptions – The total pension liabilities in the June 30, 2018 actuarial valuations from CalPERS were determined using the following actuarial assumptions:

	<u>Miscellaneous</u>	<u>Safety</u>
Valuation Date	June 30, 2018	June 30, 2018
Measurement Date	June 30, 2019	June 30, 2019
Actuarial Cost Method	Entry-Age Normal Cost Method	
Actuarial Assumptions:		
Discount Rate	7.15%	7.15%
Inflation	2.50%	2.50%
Projected Salary Increase	Varies by entry age and service	
Investment Rate of Return	7.15% (1)	7.15% (1)
Mortality	Based on CalPERS specific data	

(1) Net of pension plan investment expenses, including inflation

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2016 valuation were based on the results of an April 2014 actuarial experience study and review of actuarial assumptions report based on CalPERS demographic data from 1997 to 2011. Further details of the Experience Study can found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability was 7.15 percent for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

SALTON COMMUNITY SERVICES DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 JUNE 30, 2020

NOTE 8: General Information about the Pension Plans (continued)

B. Pension Liabilities (Assets), Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

<u>Asset Class</u>	<u>New Strategic Allocation</u>	<u>Real Return Years 1 - 10(a)</u>	<u>Real Return Years 11+(b)</u>
Global Equity	50%	4.80%	5.98%
Fixed Income	28%	1.00%	2.62%
Inflation Assets	0%	0.77%	1.81%
Private Equity	8%	6.30%	7.23%
Real Estate	13%	3.75%	4.93%
Liquidity	1%	0.00%	-0.92%
Total	<u>100%</u>		

(a) An expected inflation of 2.0% used for this period.

(b) An expected inflation of 2.92% used for this period.
