SUBDIVISION PUBLIC REPORT

ON

TRACT NO. 600
Imperial County, California
Res. No. 2195-SDProspective Purchasers Should Read This Report Before Buying!This Report Is Not an Approval or Disapproval of This Subdivision

It reflects information presented by the subdivider of the above-subject tract and other information obtained by the Division of Real Estate in its investigation and examination of said tract. This report is issued in accordance with the provisions of Sections 11010 and 11018 of the Business and Professions Code of the State of California.

Subdivision reports are issued by the Commissioner on subdivisions for the purpose of preventing fraud, misrepresentation or deceit. The Real Estate Commissioner does not regulate or govern the size of parcels, drainage, sanitation, water, and the physical aspects of subdivisions. All such matters are regulated and passed on by the local public bodies and officials.

Seller Should Note the Following:

Rule No. 2795 of the Commissioner's Rules and Regulations (Chapter 6, Title 10, California Administrative Code) requires that:

- (1) a true copy of this report must be given to the prospective purchaser;
- (2) *the prospective purchaser must be given an opportunity to read this report before a deposit is taken or an agreement of sale is executed;*
- (3) a receipt must be taken from the buyer showing not only that he received a copy but that he had an opportunity to read it before buying; and
- (4) the receipts so taken must be kept available for inspection by the Commissioner or his deputies.

DATE OF THIS REPORT: December 24, 1958

LOCATION: This subdivision is located in Imperial County, approximately 30 miles southeast of the City of Indio. It is divided into 281 parcels.

SUBDIVIDER: Salton Sea Air Park Estates, Inc., a California corporation.

DEPOSIT MONEY HANDLING: The subdivider has filed with this Division certain documents as compliance with Section 11013.1 of the Business and Professions Code. This report is issued on condition that sales contracts which will qualify for the release provisions in the deeds of trust will be used, or that any conveyances of legal title will be free and clear of blanket encumbrances.

RESTRICTIONS: Purchasers should investigate the conditions, reservations and restrictions that may run with the land, including county zoning restrictions.

Copies of those items which are recorded may be inspected at the office of the Imperial County Recorder. Information about zoning may be obtained at the office of the Imperial County Planning Commission.

A Preliminary Title Report on file indicates that an exception to the title may exist as to all oil, gas, minerals, etc., and all uranium, thorium and all other materials determined to be peculiarly essential to the production of fissionable material, with the right of surface entry. This may mean that the owner of the mineral rights to the land may enter upon the land to explore or develop same at some future date.

Title report also advises that all underground water and water rights have been reserved.

STREETS: Streets within this subdivision have been offered for dedication for public use and have been accepted by the County. The streets are not yet fully improved. Subdivider advises a bond has been posted with the County to insure the installation of the streets.

WATER: No regular water system has been installed. The Desert Shores Community Services District advises that it will service water. It does not appear that this District yet has any water or water rights or any distribution system or any money. The Division of Real Estate has been advised that certain contractual arrangements have been made for development of water and installation of a water system, and for conveying the water rights and the system to the Community Services District. However, the Division of Real Estate has not been advised of the financial abilities of the contracting parties, and no completion bonds have been filed.

It has not yet been determined whether all of the water is to come from local wells, or whether there will be two systems; one for hauled-in drinking and cooking water and one for local water to be used for other purposes. While water from wells is obtainable, it is not known to be suitable for human consumption.

Imperial County Health Department advises: "WATER SUPPLY..To be approved by the California State Department of Public Health. The Desert Shores Community Service District has agreed to supply water to these Tracts. If a suitable potable supply cannot be found in the area, the available mineral water will be treated to reduce the chemicals to meet California State Department of Public Health Standards; or the installation of a dual system, comparable to the one approved at Desert Shores, will be made".

UTILITIES: No utilities are installed yet. The subdivider advises that electricity will be furnished by the Imperial Irrigation District, subject to possible installation costs.

There is no piped gas service available at this time, but the subdivider advises that butane gas service is available from the Indio Gas Company. There is no telephone service available at the present time.

SEWAGE DISPOSAL: Septic tanks and seepage pits are to be used, at least at this time. It appears that these may not function properly as the area develops, and contractual arrangements have been made for the payment of certain monies by the subdivider to the Community Services District for the eventual installation of a community sewer system as needed. The Division of Real Estate has not been advised of the financial abilities of the contracting parties. Sewer lines will apparently be installed in the easements on the rear of the lots at that time.

Imperial County Health Department advises: "SEWAGE DISPOSAL... Engineering studies indicate that soil conditions are not favorable for individual disposal systems except on a temporary basis, but the subdivider informs us that, as the area develops and the need
